Entered as Second-class Matter at the Postoffice, Ogden, Utah.

NEW JERSEY IS IN LINE

Progressives of That
State Will Have a
Ticket

Asbury Park, N. J., July 23.—New Jersey Progressives, in a mass convention today, decided to put in the field for the November elections, a complete Progressive ticket, but were still undecided as to the method by which this ticket should be nominated. The executive committee of the Roosevelt state organization met before the convention assembled. A minority that opposed an absolute break from the old Republican organization prevailed so far that the committee decided against any declaration for the immediate establishment of a new party. This course, it was said, opposed the view of Colonel Roosevelt, whose personal representative attended the meeting. It was decided that the 28 delegates, all Roosevelt men, who represented the state at the regular Republican national convention, shall serve in the same capacity at the National Progressive convention with power to fill the few vacancies. Two of these delegates, the committee decided, shall be colored men. This was granted in compliance with the resolution of a committee of four negro leaders who waited upon the committee last night. The "declaration of principles" will be similar to that adopted by the Roosevelt state convention at the opening of the primary campaign.

RECEPTION TO LORIMER

Deposed Senator Will be
Dined by Friends
—Auto Parade

Chicago, July 23.—There will be a public reception to former Senator William Lorimer at Orchestra hall tonight given by his friends. Mr. Lorimer will return tonight en route to his summer home at Pleasant bay, where he went directly after his arrival from Washington. At that time he was met only by his son and the absence of any demonstration on the part of his friends was said to be at Mr. Lorimer's own request. It, however, gave rise to a rumor that there would be no public welcome for him.

According to plans as arranged, an automobile parade will be organized, at the railroad station upon Mr. Lorimer's arrival and the procession will proceed at once to the meeting place. It is announced that Mr. Lorimer, who will be the principal speaker, will devote his main remarks to the final disposition of his case in the United States senate.

Mr. Lorimer announced at the time he reached the city yesterday that he felt ill effects from the automobile accident in which he figured on Saturday.

SILENT FOR TWO YEARS

Convict Sentenced to
Death Supposed to
Be Insane

Sacramento, Cal., July 23.—For more than two years Charles Carson, a convict in the state penitentiary at Folsom, has not been heard to speak. Carson is under sentence of death, and the last of the numerous replies granted him expired August 2. Warden James Johnson, however, believes that Carson is insane, and on Wednesday in this city a jury will determine whether or not the man's mental condition is such that the state law preventing execution of the death penalty when the convict is insane will apply to his case. Alienists have examined the man, but none have been able to induce him to break his silence, which is the only sign of insanity noticeable. Carson was sentenced for a comparatively short term, but he participated in an attempted prison break in 1905 and for this was sentenced to death.

There is always a big demand for a thing that cannot be had.

TAFT HAS WEAKENED

Now Ready to Recom-
mend Repeal of Re-
ciprocity Legislation

Washington, July 23.—President Taft has indicated to several western delegates who were active opponents of Canadian reciprocity, that he would favor the repeal of the act. Some of those with whom the President has talked think he may send a message to congress on the subject or will state his position in his speech of acceptance when a committee of the Chicago convention notifies him on August 1 of his nomination. Senate leaders say that so far the President has had no direct communication with the finance committee on the subject, nor sent any communication to the committee on the subject saying he favors repeal. Mr. Taft will not withdraw his own support of Canadian reciprocity as a principle, it is understood, but will take the position that the United States will not offer what Canada refuses to accept.

Senators McCumber, Heyburn, Granger and others urged a repeal and an amendment was put on the steel bill recently and is now in conference providing for such action. It is asserted among western senators that if any tariff measure is passed in the senate this week, an amendment will also be incorporated for the repeal of the reciprocity law. In case any of these bills reaches the President and is vetoed, it is expected he will make clear in his veto message the fact that he would approve a message to repeal reciprocity.

JACK JOHNSON AS A BASEBALL PLAYER

Chicago, July 23.—Jack Johnson, heavyweight pugilist, is about to become baseball player. Johnson last night made application for the first base position on the American Giants, "Rube" Foster's colored semi-professional team, and will be given a chance for the place. Manager Foster asked Johnson to report for morning practice for a couple of weeks for the purpose of developing his batting powers. Johnson says he played a fair game of baseball several years ago and he has no doubt that he can "come back."

MITCHELL SENTENCED

Nine Months in Prison
For Contempt of
Court

Washington, July 23.—John Mitchell, vice president of the American Federation of Labor, today was sentenced in the District of Columbia supreme court, to nine months' imprisonment for contempt of court, growing out of the Bucks Store & Range company case. An appeal was taken and \$4,000 bail furnished to abide by the decision of the upper court.

In the same case, President Samuel Gompers recently was sentenced to one year and Secretary Frank Morrison to six months. Mr. Mitchell was not in court but sent a written statement waiving his right to be present. He was to have been sentenced last week, but Justice Wright then declined to pass sentence because he objected to the form of waiver submitted for Mr. Mitchell. Spoke Wash, July 23.—John Mitchell, who arrived here yesterday to deliver a lecture on labor conditions, left late last night for Pontiac, Mich.

ACCIDENT CAUSES MANY INJURIES

Erie, Pa., July 23.—Twenty-five persons were injured, five seriously, when a trolley car jumped the track at Four-mile creek, a summer resort near here last night.

Charges were made that the motorman and conductor were talking and joking on the front platform while the car was rocking and careening along at a rate of thirty miles an hour before it hit a sharp curve and turned over on its side.

Pitcher Knapp, who was tried out by the Athletics last spring, is making good with the Waterbury team of the Connecticut league.

RAILROAD BANKRUPT

Moffatt Road May Be
Bought by the Union
Pacific.

Denver, July 23.—The Denver, Northwestern & Pacific railroad, known as the Moffatt road, will be sold under the hammer to satisfy overdue \$3,500,000 bonds held by eastern bankers, according to a statement current here today. It is rumored the Union Pacific will be a prominent bidder, a representative of that road accompanying the bondholders on an inspection tour of the road yesterday. Returning from the inspection late last night, the creditors were non-committal as to the future of the road.

SCANDAL IS UNEARTHED

San Francisco Chief of
Police Solicited
Hush Money

San Francisco, July 23.—The discovery of an entry in a memorandum book belonging to Ng Fook, a Chinese placed on trial on a charge of forgery here yesterday, has unearthed a police scandal reaching back to the regime of former Chief of Police Martin, and which, it is said, may involve high and low officials in the police department. The entry, written in Chinese characters, by Ng Fook, reads as follows: "The chief of police demands some black silk, much or little. Send it on from Chinatown and it will be all right."

On the same page was written in English, "Joe P. Maloney, police officer, Central station, San Francisco, Cal." Maloney was assigned to duty in Chinatown in February, 1910, before the gambling expose which led to the resignation of Chief Martin, a McCarthy appointee. According to General John E. Gardner, of the federal immigration service, who made an official translation of the entry, "black silk" is a Chinese slang phrase for hush money.

The memorandum book was introduced by Attorney Greeley, representing Ng Fook, the attorney apparently believing the notation referred to a conversation between his client and Maloney regarding a civil service examination Theodore Kyria, handwriting expert, previously had learned the true translation of the entry and Greeley was trapped into offering it as evidence. Ng Fook is a member of a wealthy Chinese family, and a relative of Dong Wo, a notorious Chinese who has been accused of smuggling. Maloney is still a member of the police force.

AIMING TO SECURE BANK DEPOSITS

Chicago, July 23.—Skeleton plans for a state law regulating the private banks of Illinois have been submitted to B. F. Harris, president of the Illinois State Bankers' association, by a committee appointed by him. The committee, headed by Charles G. Duves, makes recommendations aiming to secure the safety of deposits in private banks without making it too hard for the private bankers of the state to comply with the law. In corporation of all banks of a private character is the first step demanded, three years being given for the institution to convert its assets into those that will comply with the law regulating state banks.

A minimum capitalization of \$25,000 is fixed in the plans, special provision being made for banks outside of Chicago. Private banks now existing, are exempted for two years from publishing reports upon their condition.

HIS AUTOMOBILE TURNED TURTLE

Rochester, N. Y., July 23.—Judge Charles W. Johnson of Perry, was killed and three guests seriously injured when his automobile turned turtle last night about a mile from Perry. The injured include Mr. and Mrs. William Harford of Chicago.

Del Howard, the former Chicago-Louisville player, has been released by the St. Paul club to the San Francisco club of the Pacific Coast league.

THEY MADE POOR SWAP

What Roosevelt Thinks
of Barnes, Penrose
and Guggenheim

New York, July 23.—In the first speech since he returned from Chicago, Colonel Roosevelt today set forth his reason for leading in the formation of a new party. His address was delivered at a meeting of the New York state county chairmen of the National Progressive party.

Colonel Roosevelt did not want to speak, he declared, but the chairmen would not be denied.

"No man knows better than I," said Colonel Roosevelt, "that enthusiasm and high principles cannot be effective without organization and work. A great responsibility rests on you men here, who are undertaking the organization of a new party which is to stand four-squared to Democracy, which is to be literally the party of the people."

"It will fight on live issues and not dead ones. It will embody a protest against the corruption in both of the old party machines. It will be a party into which ex-Democrats and ex-Republicans, without regard to their political past, are to come in on an exact equality and to have each the same share in the party management. "When we get started it will be a party not only representing the people at election time, but will represent them in party management. We are going to see to it that it is organized so that it will be impossible for any fifty-three men chosen four years before by politicians to stand superior to all the voters of a great state like California and that, if that state has not shared its laws according to a given call of 53 private men, the state shall not be disenfranchised. "My own judgment is that Messrs. Barnes, Penrose, Guggenheim and company made a poor swap when they took two stolen delegates from California in place of the electoral vote of California. They were not content with that. They swapped the electoral vote of Massachusetts for the vote of two delegates. I think it was

REPLIES TO ENGINEERS

Worthington Says They
Are the Highest Paid
Workmen

New York, July 23.—At the morning session of the arbitration committee today to determine the merits of the wage controversy between the locomotive engineers and the managers of fifty-two railroads east of Chicago, B. A. Worthington, president of the Chicago and Alton, again took the stand. He completed his explanation of the 115 statistical tables which the railroad managers offered to controvert the claims of the engineers for increases in pay estimated at \$7,500 a year.

He said these tables show a gradual increase in the pay of engineers, who are the highest paid skilled workmen in the service of the railroads. Mr. Worthington called attention to the increased cost of operating railroads under recent federal laws and requirements of the Interstate Commerce commission. He produced tables, showing it will cost the railroads \$19,163,462 to comply with the laws requiring the installation of safety appliances. He said the railroads did not object to this, the cost is spread over a large area. It costs \$11,865,000 a year to observe the 16-hour law, and \$12,000,000 a year to meet the requirements of the full-train crews, said Mr. Worthington. This law, he explained, compels railroads to keep more men on both passenger and freight trains than reality is necessary.

MRS. RENA B. MORROW WILL SUE FOR SLANDER

Chicago, July 23.—Exonerated of the charge of murdering her husband, Charles, Mrs. Rena B. Morrow, the prominent south side club woman, is preparing to file slander suits against her stepson, Dr. Arthur Morrow of Hinsdale, and Henry Gilmore, a former roomer in her home. In each case, according to her counsel, Mrs. Morrow will ask \$10,000 damages, and the action will be brought in tort, so that if judgment is granted and payment is not made, the defendants may be committed to jail. The action against Dr. Morrow is to be based on slanderous statements he is alleged to have made outside the courtroom before and during the Morrow trial. The suit against Gilmore will be based on his alleged defamation of Mrs. Morrow's character at the preliminary hearing in the Hyde Park police court.

THIRD PARTY IN COLORADO

Opens Campaign With
Large Audience in
Canon City.

Canon City, Colo., July 23.—The Republican Progressive campaign in Colorado opened here last night when Philip B. Stewart, candidate for governor, and Attorney General Ben Griffith, candidate for United States senator, addressed a large audience in the opera house.

At the conclusion of the meeting petitions placing the names of the speakers on the ticket were circulated. The meeting was the opening of a whirlwind automobile speaking tour in the Arkansas valley.

SURRENDERS TO POLICE

One of the Occupants of
'Murder Car' Makes
Appearance

New York, July 23.—The gunmen wanted for the killing of the gambler, Herman Rosenthal are beginning to fall into the nets. Harry Vallon, one of the five notorious gamblers who were in the "murder car" the night Rosenthal was shot, surrendered himself to the police this morning and within ten days Deputy Police Commissioner Dougherty expects to round up the whole gang. With the men who actually did the shooting in the tolls the main work of District Attorney Whitman and Deputy Police Commissioner Dougherty will commence. That of trying to learn the identity of the conspirators who so greatly desired that Rosenthal be done away with before he could make further revelations of the relations between the police and gamblers.

Several of New York's prominent citizens have offered to pay for a private investigation into the question of whether police partnership with the gamblers led to the slaying of Rosenthal. Commissioner Dougherty remarked significantly to District Attorney Whitman that "I guess we agree as to who is back of this killing." But the public prosecutor does not feel that Commissioner Dougherty can swing the investigation of the killing alone as he is of the belief that the police department will give no real aid.

The surrender of Vallon may be followed by the voluntary appearance of other gamblers known to have been in the "murder car" the night of the killing. Besides Vallon there were Harry Horwitz, best known under his gang name of "Gib, the Blood," "Dago Frank," an East Side gangster, "Lefty" Louie and "White" Lewis.

Vallon has nothing of the appearance of a gangster of the meaner sort. His appearance at police headquarters dumfounded the desk sergeant and he had to convince the desk sergeant as to his identity before he was locked up.

Vallon drew up at headquarters in a taxicab and loungers saw a fastidiously dressed, dapper, little chap, step lightly out from the car and swinging a cane from a gloved hand, mount the steps of the building. "Kindly tell me where the detective bureau is," he asked.

Then Vallon appeared before Lieutenant McNally and gave himself up and was locked up after that astonished official could summon an officer.

Commissioner Dougherty prepared to give Vallon the "third degree" to learn further of those who hired the gunmen to kill Rosenthal. That some of the gunmen who killed Rosenthal have fled the city is believed by detectives.

District Attorney Whitman, when told that counsel for Shapiro was ready to have the chauffeur of the "murder car" turn state's evidence if he would be protected, said: "I will protect every man in this case if I can get the evidence I want against policemen; evidence I know exists. I will let Shapiro and Libby turn state's witnesses if I can get the police conspirators."

Mrs. Herman Rosenthal, the murdered gambler's widow, came to the criminal courts building and at once went into District Attorney Whitman's office. It was expected she would testify before the grand jury.

HOLDS STRIKE-OUT RECORD.
Sharon, Pa., July 23.—Shippe of the East Liverpool club almost has established a world record on strike-outs. In the last four games in which he has officiated he fanned 61 batters. Tuesday, against Alliance, Shippe fanned 15.

YANKEES TOO FAST

Defeat Crack Crew of
Oarsmen on Mau-
retania.

New York, July 23.—There is a boat crew aboard the steamship Mauretania that until yesterday believed it could out-row any other boat crew that ever pulled oars. When the German squadron was in this port the Mauretania crew wanted to row the Teutons but for some reason the Kaiser's sailors declined to row against the liner's men.

This week the Yankee life-savers on the Hudson river piers got together a scratch crew and manned one of the Mauretania's lifeboats to give the Britishers a run. The distance staked off was a trifle more than a mile.

The race began at 5:30 o'clock in the afternoon. Each crew pulled at the rate of thirty-nine strokes a minute but at the middle of the course the boat rowed by the Americans was in the lead and when the finish stake was reached there were two boat lengths of green water between the Yankees and their crestfallen challengers.

"Them as goes to sea 'aint always the best rowers," was the longshoremen's comment.

REPORT ON CAR STRIKE

Is Against Elevated
Railroad Company
in Boston

Boston, July 23.—The official report of the investigation of the Boston elevated railroad strike conducted by the state board of conciliation and arbitration finds the employees justified in believing that many men were discharged because of forming a union. It recommends that the two parties confer with a view of reaching an amicable agreement.

The evidence presented shows that immediately after the employees formed a union some 262 men were discharged for various offenses, 149 of the number without explanation other than "unsatisfactory" service.

"The situation 'obviously aroused the temper of the men to a point beyond control,' the report says, and some 1,600 employees voted to strike. Notwithstanding the company contends no strike exists, as all the strikers' places have been filled and the cars are now running on schedule, the board declares:

"A strike exists so long as those who strike maintain an organization, or by concerted action, continue in the endeavor to secure the objection which they seek to attain."

In summing up its conclusions, the board quotes the state law that no person shall coerce or compel another not to join or become a member of a labor organization and adds:

"It appears by the evidence that many of the company's cars are being operated by men whose conduct does not merit the approval of the traveling public; that there has been neglect, discourtesy and insolence on the part of some of the employees; that conductors have been seen to collect fares without recording them by the device furnished for that purpose. This latter abuse of the public and the company has a decided tendency to weaken the high standard of honesty which is so essential to our social industrial structure."

The New York state league teams have been putting up a corking penant race with only a hundred points separating the first from the eighth team.

YOUNG GIRL A BURGLAR

Caught by the Denver
Police While She Is
Peddling.

Denver, July 23.—In the arrest late yesterday of Mary Werner, a 21-year-old girl while house-to-house peddling stolen jewelry, the police believe they have captured a mysterious and highly successful woman burglar who has been operating in the fashionable section of the city.

In the room she occupied at a hotel 3000 worth of unset diamonds were found under the carpet. She refuses to give any account of herself.

EMPEROR IS IMPROVING

Japanese Ruler Contin-
ues to Grow Better—
Still in Danger

Tokio, July 23.—The condition of Mutsuhito, the emperor of Japan, continues to improve, according to reports of court physicians this afternoon. A bulletin issued at 1 o'clock this afternoon says:

"His majesty slept throughout the morning. His temperature is now 98.70. Otherwise there is no change." A further bulletin issued at 9 o'clock this evening says:

"The emperor was somewhat sleepless during the day. His temperature is 98.72. His pulse is 'fiful'."

TODAY IN CONGRESS

Washington, July 23.—The day in congress:

Senate.
Convened at 11 a. m.
Postoffice appropriation bill embracing a parcels post system was reported.

Senator Gardner spoke on parcels post systems.

Education and labor committee endorsed bill reading a department of labor and bill creating a commission on industrial relations, both of which have passed the house.

House.
Convened at noon.

Resumed consideration of seamen's efficiency bill.

Judiciary committee virtually ordered an immediate inquiry into the existence and ramifications of the so-called "bush trust."

FUNERAL DIRECTORS.
Walla Walla, Wash., July 23.—E. E. Cookery, president of the National Funeral Directors' association, announced last night that advances from the executive and transportation committee of the association are to the effect that the annual assemblage at Chattanooga, Tenn., this year will have to be held October 3 to 5, inclusive, instead of the latter part of October. Eight hundred delegates are expected. The meeting this year will be the first in 25 years to be held in the south and the first ever presided over by a western man.

You have to hand it to the St. Louis Browns for running true to form. Here's the dope: July 19, 1911, 20 wins, 53 defeats, 274; July 10, 1912, 20 wins, 53 defeats, 214.
